### General Use Directions

Enhance plant health. Cleanse plants. Strengthen the natural defense system of the plant. Washed plants appear to be stronger and healthier producing better flowering & fruitation. Product can be used alone or in combination with pesticides, herbicides and fertilizers. Product can be used as a seed/root dip, tree drench, carrier for fertilizers, herbicides, pesticides, etc. with excellent results.

Always jar test before using.

#### General Use Dilution Rate - 100:1.

(example: 1.25 liquid ounces per gallon water)

**Use at 2oz per gallon on plants fighting stress such as fungus, insects, drought, frost, etc.**

**Warning: Do not mix stronger than 40:1. Can be harmful to growing crop.**

Can remove old residue from nozzles, hoses, & tanks of sprayers. This initially could cause plugging of nozzles & screens until clean.

**Caution: Keep out of reach of children.** Can be harmful if swallowed; may cause diarrhea. If ingested drink water and consult a physician. Avoid prolonged contact with skin. In case of eye contact flush with plenty of water for at least 15 minutes. Product is GRAS (Generally Regarded As Safe) according to the USDA and worker safe.
